Elden Ring

"A fantastic RPG that has a rich and unique story and deep characters. When I was first watching a trailer on YouTube, I thought that the RPG was "the kind of RPG that you play in the browser", but it looks like I was in for a surprise." "Dejavu, the story of a forgotten Elf that tries to restore the honor of his race who seems to have forgotten about his past. He joins the factions to gain experience and get stronger, and also find a way to save the world from the grips of chaos and darkness. The gameplay and graphics are top notch, with fluid animation, great character designs, and beautiful environments. It's just the story that feels a little too short for my taste, but that's something that's common to most RPGs. (My biggest problem with this game as well.)" "I thought that I played a typical RPG in the browser, but I was wrong. With an interesting story that kept me hooked until the end, and a great combat system that is fun to play, it's an RPG that doesn't disappoint. (I'm a sucker for good characters.)" "Also, the story is really good. It has this great contrast between times of peace and times of chaos, because of the uniqueness of being able to play from both perspectives. I recommend this game to anyone who likes tales that involve a great narrative and epic adventures." Q: What is the difference between `!==(null` and `!==(0` in javascript I want to know difference between `if(type ==!==(null || type ==!==(0)` and `if(type ==!==(null || type ==!==(0)` **A: `!==(null` Try to check type is not empty `!!type` It's an empty type and may throw an exception Use `!==(0` when you want to validate that type is not 0. Who's the Odd Man Out? With USA Basketball still in a holding pattern at the FIBA World Cup awaiting news about Kevin Durant's injured ankle, Houston Rockets general manager Daryl Morey is starting to get a little anxious. Morey wants the Americans to walk away with a bronze medal, but he didn't want to have to close his eyes and think of something else in the event Durant doesn't play and the Americans can't quite beat the Turkish team. "Without Kevin, our gold medal chances decrease, but we'll take the silver and bronze," Morey told media members. Morey would have to be reminded. As of right now, the Americans are just**

one of three teams that made the FIBA World Cup field. The United States has yet to say who its 13-man roster will be, but we know how important Durant is to this team's chances of winning gold. The Rockets were a little surprised when he decided to return to the NBA instead of playing for the Americans. "It's sad because I really liked the guys on that team," Morey said of Team USA. "I think he knows that. But he's an amazing player." If Morey were a cowboy, you might be able to picture him riding into town on a horse, but the general manager works out of the Staples Center. Rather than galloping into town on a horse, Morey is on a Cessna. What if Durant were to come back to the NBA? "The first place we'd be talking to him is about his availability, because he's not a restricted free agent. He has a few options," Morey said. Golden State Warriors center David Lee played for the National Team in the Olympics, but

Search... running errands around town, we lost sight of the guest house on the road to Gyzochromie. We met with a friendly jogger who was waiting at the nearby trail. We quickly pulled into the guest house and said hello to our two hosts, Petros and Victor. Since we arrived in town a day early, we'd decided to stay at the guest house

and walk up to Gyzochromie to begin our hike. The next morning, we found a sign directing us toward the Gajinytenos Gorge. Gyzochromie is the name used by locals for the three-quarters of a mile stretch of rambling main street, Zochromie, that ends at the little community of Gyzochromie, a fair distance from June Lake. Zochromie has a small eatery or two, an antique store, a few artisans' shops, and souvenir stands. There's even a crepe stand open until midnight in the summer. Our hike was actually a little more than a mile. We began by descending a steep, tree-lined slope. The path wound down into the canyon that is a part of Gajinytenos Gorge. While man-made, the canyon was a part of the original free-flowing river. It had been a scenic destination as early as 1899, when the Long Lake and Gondola Railway Company built a line that then ran down the canyon, ending at Olympic Dam. At one time,
